--------------------------------	--------------

The physical properties listed above are typical values and are not to be considered as specifications. Our suggestions for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their internal use. Nekoosa assumes no liability for claims beyond those outlined within our Limited Warranty, which includes replacement value of Nekoosa product proven defective. For full disclosure of the Limited Liability Warranty, please contact your Nekoosa representative.

**Typical Uses** - Excellent for transferring small to medium size self-adhesive signs, logos and vinyl lettering, produced from cast or calandared CAD/CAM plotter films with matte or gloss surfaces. Ensures a bubble-free lamination to graphics and leaves no adhesive residue with wet applications.
